In the early 20th century, the Middle East was a hotbed of intrigue and espionage. The Ottoman Empire was crumbling, and European powers were vying for control of the region. Against this backdrop, a young Dutch engineer named Willem Norde finds himself embroiled in a dangerous plot that could have far-reaching consequences.

Norde is sent to Baghdad to work on the construction of a new railway line. However, he soon discovers that the project is not what it seems. The railway is being built by a German company, and there are rumors that it is being used to transport weapons and supplies to the Ottoman Empire. Norde becomes suspicious, and he begins to investigate the project.

As Norde digs deeper, he uncovers a web of intrigue and deception. He learns that the German company is working with a group of Arab nationalists who are planning to overthrow the Ottoman Empire. Norde is torn between his duty to his country and his sympathy for the Arab nationalists. He knows that if he exposes the plot, it could lead to war. But if he does nothing, he could be complicit in the overthrow of the Ottoman Empire.

Norde's journey takes him from the bustling streets of Baghdad to the remote deserts of Arabia. He meets a cast of colorful characters, including a beautiful Arab woman named Leila, a wise old sheikh, and a ruthless German spy. Along the way, he learns about the complexities of the Middle East and the dangers of playing the game of espionage.

Train to Baghdad is a gripping tale of espionage, intrigue, and adventure. The novel is based on **真实故事**, and it provides a fascinating glimpse into the world of early 20th century espionage. Norde is a complex and sympathetic character, and his journey is both exciting and thought-provoking.
